

On February 17, 2009, the American Recovery and Reinvestment Act (ARRA) was passed by Congress and signed into law by President Obama. ARRA provides increased support to several existing federal programs administered by states, creates new programs such as the State Fiscal Stabilization Fund, and offers opportunities for states to apply for competitive grant programs.

The American Recovery and Reinvestment Act's significant investment in North Carolina totaled almost \$19.5 billion, including assistance for those needing help the most through increases in unemployment benefits, Medicaid payments, and food stamps. In addition to those expanded services, ARRA gives hundreds of thousands of working North Carolinians a break through tax credits like the *Making Work Pay* tax credit and the *First Time Homebuyer's* tax credit.

The Recovery Act is not like earlier attempts to revive the nation's economy. It is not only a one-time infusion of federal funds; instead it is a long-term effort to restore economic expansion in the short-term, as well as prepare the nation's economy for stable, healthy long-term growth. Under the terms of the Recovery Act, support for North Carolina's economy will include both investments made directly by the federal government and investments of federal funds that are made under the oversight of the North Carolina state government.

## American Recovery and Reinvestment Act Report, Onslow County

Onslow County received more than \$213 million in ARRA funding in grants, loans, and bonds. The following report outlines the various funding categories that contributed to the Onslow County total.

**Pell Grant Awards:**  
**2,532**

**Small Business Jobs:**  
**101**

**Appliances rebated:**  
**264**

**Family homes financed:**  
**69**

**Recovery Act Totals:**  
Grants: \$ 163,360,686.05  
Loans: \$ 39,602,781  
Bonds: \$ 10,100,000

**Total: \$213,063,467.05**

## Education

The Recovery Act placed a special emphasis on maintaining education funding. Governor Beverly Perdue furthered this commitment by pledging additional recovery funds from the Recovery Act to education, and leading North Carolina to additional funds by winning \$400 million in the Race to the Top program.

Most of the ARRA education funds are distributed to local schools through existing funding formulas. Special Education Funds and Title I funds go to schools based on eligible student enrollment. State Fiscal Stabilization Funds (SFSF) and the EduJobs grants were designed to hold schools harmless during the recession, and were distributed to public and charter schools. The school systems have spent the majority of the funds on staff and support. Some projects, such as Race to the Top, will be spent for purchasing products and services rather than salaries for staff.

Authorization for low/no interest bonds for school construction/renovation followed the Department of Public Instruction procedures with initial allotments to the school systems. If a school system could not utilize their allotment, it was released to other school systems that could utilize additional allotments.

**Onslow County schools** received \$28 million in education funding, including \$5 million in Special Education funds, \$4 million in Title I funds, \$13 million in SFSF funds, and \$2.5 million in Race to the Top funding.

Pell Grants are an educational Assistance Program that provides grants to eligible students to receive post-secondary or vocational training. Because Pell Grants are not student loans, they allow students to receive financial assistance to further education and training without incurring additional debt. The American Recovery and Reinvestment Act increased the eligibility and the maximum amount of Pell Grants in 2009 and 2010 as a way to encourage educational opportunities, and to provide a way for eligible applicants to gain new job skills.

**In Onslow County**, Coastal Carolina Community College had 2,532 students funded by Pell Grants; these grants were worth more than \$3 million.

## Family Assistance

The Federal Department of Agriculture increased funding to their Single-Family home program with the ARRA. These resources assisted families in achieving the American Dream of home ownership through direct financial assistance (grants) or credit (loan guarantees). This program pumped more than \$729 million into North Carolina, providing assistance to more than 5,400 families.

**In Onslow County**, 69 families received assistance through this program totaling more than \$10 million.

The Department of Energy created the Energy Star Appliance rebate program to help stimulate the economy by incentivizing the purchase of new, more energy efficient appliances, and helping consumers by providing long-term savings from their utility bills. The State Energy Office in the North Carolina Department of Commerce managed the program insuring North Carolina residents and retailers received the maximum benefit from this opportunity. North

Carolina retailers sold more than 25,500 new energy efficiency appliances through this program, and North Carolina residents will enjoy energy savings for years to come. The program was so successful, that the State Energy Office reprogrammed additional funding to provide discounts to everyone participating in the program, bringing the total program value from \$8 up to \$10 Million.

**Onslow County** retailers sold 264 appliances through the Energy Star Appliance rebate program.

## Small Business Assistance

The ARRA provided tax breaks, increased depreciation of business assets, and incentives for hiring for small businesses through the tax law changes found in Part B of the Act. The Recovery Act also established direct aid programs through the federal Small Business Administration (SBA) and US Department of Agriculture (USDA). These programs provided grants, loans and loan guarantees to grant small businesses access to much-needed operational credit during 2009 and 2010.

**In Onslow County**, 9 small businesses received SBA loan guarantees worth \$4.5. According to the small businesses receiving these loans, the Recovery Act saved or created 40 jobs. Additionally, the USDA Business and Industry Program provided 3 loans worth more than \$11 million dollars that saved or created 61 jobs.

## Farm Assistance

The Supplemental Revenue Assistance Payments (SURE) Program is administered by the Farm Services Administration in the federal Department of Agriculture, which provides assistance to farmers suffering crop losses due to natural disasters. To qualify for the program a farm must have lost at least 10% of one crop during a natural disaster in a declared disaster county, or lost 50% of a crop during a disaster in a non-disaster county. North Carolina farmers received more than \$9 million in total payments under the ARRA-Funded SURE Program.

**In Onslow County**, \$65,076 was received in assistance to farmers because of crop loss to natural disasters.

## CARS Program

The Car Allowance Rebate Program (CARS), more widely known as the 'Cash-for-Clunkers' program, provided an incentive for drivers of older, energy inefficient vehicles to upgrade to new cars. This program also provided a large economic impact in North Carolina, and North Carolina dealers received more than 18,000 trade-in vehicles through this program. North Carolina Car Dealers sold more than \$400,000,000 worth of new cars (recommended MSRP) through the CARS program. North Carolina drivers will save 172,130 miles per gallon through cars purchased through this program.

**In Onslow County**, car dealers sold 409 cars worth \$9 million through the ARRA CARS program.

## Justice and Public Safety Programs

ARRA increased funding to the federal Byrne Justice Assistance Grants Program (JAG). JAG funds were awarded both as a formula allocation to the State, for \$34.5 million, and grants distributed by the Governor's Crime Commission to various local governments and entities. In addition, \$21,853,798 went to 216 local governments across the state for various purposes in line with the requirements of the act. Finally, there is a federal competitive portion that was open to state or local government applicants.

**In Onslow County**, the Onslow County Government, the Town of Swansboro, and the City of Jacksonville received \$230,000 in JAG program grants.

## Environment and Natural Resources Programs

ARRA funded several programs to protect the environment, or to develop natural resources more efficiently. These programs ranged from environmental clean-up, such as leaking underground storage tank abatement and Brownfields programs, to EPA clean air grants, wildfire prevention grants, and revolving funds to build, expand, or overhaul existing water and sewer programs. These programs provided nearly \$150 million across North Carolina.

**In Onslow County**, the City of Jacksonville received \$3 million for water and sewer upgrades. In addition, the Onslow Water and Sewer authority received \$8.5 million in water and sewer grants from the State Revolving Fund and the USDA's Rural Utilities Service for water and sewer upgrades.

## Green Energy Programs

One of the goals of ARRA was to provide grants to help conserve energy and assist in the development of a green economy. The State Energy Office in the North Carolina Department of Commerce received large grants for energy conservation under the American Recovery and Reinvestment Act. These grants include the Energy Efficiency Conservation Block Grant (EECBG), funded at just under \$20 million, and the State Energy Plan (SEP), funded at \$70 million. The State Energy Office then used these grants to make awards to businesses, non-profits, and local governments for various purposes.

**In Onslow County**, Onslow County Farmers' Market in Jacksonville received a Green Business Fund grant of \$24,095 to become the first solar-powered farmer's co-op association in the United States.

## Military Programs

The American Recovery and Reinvestment Act included approximately \$7.4 billion in defense-related appropriations. This includes funding for all service areas and the Army Corps of Engineers. Recovery Act funding addressed some of the unique economic pressures faced by American service members because of their voluntary commitment to serve our nation. The Recovery Act included assistance to service members, upgrades aimed to improve the quality of life for troops and their families, funded three new facilities, and two new VA hospitals in North Carolina, addressing critical needs across the state. In addition to providing much needed facility improvements, this bill also provides more funding for our energy research programs, so that Department of Defense (DOD) can continue to lead the way in the national effort to achieve greater energy independence. North Carolina had 103 military projects funded for a total of \$166 million.

**In Onslow County**, the Department of the Navy spent more than \$67 million on improvements to Camp Lejeune, including the construction of a new Child Development Center.

## Safety Net Programs

Safety net programs are the category of ARRA funding that consists of programs designed to help populations made particularly vulnerable by the economic crisis. These generally include increases in existing programs, most notably the increase in both benefit level and duration of unemployment payments. Increases in the amount and duration of unemployment payments makes up the largest chunk of safety net programs funded through the Recovery Act, totaling more than \$3.5 billion statewide over more than two years. Safety net programs such as unemployment insurance and SNAP (formerly known as Food Stamps), not only benefit the recipient, but have a proven economic impact on a community.

**Onslow County** residents received \$23 million in Unemployment Insurance increases during the 2 ½ year ARRA benefits increase. County residents also received \$5.5 million in SNAP benefit increases, and \$5 million in one-time payments of \$250 to social security recipients.

**Onslow** County received more than \$100,000 for Head Start Programs.

## Onslow County Feature Story

### Camp Lejeune Improves Energy Efficiency, Quality of Life and Child Services with Recovery Funds

The American Recovery and Reinvestment Act provided funds to military institutions to increase their energy efficiency and to implement green and renewable energy programs on bases. The Department of Defense considers energy independence vital to our national security, and more critical now than any time in the past. According to the Department of Defense, every \$10 increase in the price of a barrel of oil increases the Department of Navy's shore infrastructure costs by over \$60 million. Energy efficiency is not only cheaper; it also furthers our progress towards national energy independence.

Marine Corps Base Camp Lejeune was the site of several Recovery-funded energy efficiency projects designed to create jobs with local businesses. More than \$40 million in Recovery funding went to projects that upgraded facilities, lowered the cost of operations at the base, and increased the comfort of residents of the base.

Camp Lejeune awarded a contract in the amount of \$2,295,495 to ENVETCO, a local small business construction firm from New Bern, N.C. The contract specified the replacement of existing lighting fixtures with energy efficient LED streetlamps in the Camp Johnson, Courthouse Bay and Paradise Point areas. The replacement benefited Camp Lejeune with better outdoor illumination and greatly reduced power consumption costs.

Camp Lejeune awarded \$3.5 million to replace mechanical, electrical, and roofing systems at buildings 1316 and 1317. The buildings, a pair of 1940's era warehouses, were upgraded with 'cool roof' white-reflective surfacing on their roofs and LEED certified roofing systems with installed solar panels, along with replacement of HVAC, plumbing, water heating and steam/condensate systems with more energy efficient systems. The solar panels transform the sun's radiant energy into electrical power, and helps offset electrical demand to the local utility at a substantial savings. The contact was awarded to North State Mechanical, Inc., a local small business from Jacksonville, N.C.

A 'cool roof' is one that reflects more and absorbs less of the sun's radiant energy while emitting its absorbed (non-reflected) energy more quickly. Cool roofing technology greatly reduces heat transfer to a building's interior and can result in savings of 20 to 30 percent in annual cooling energy consumption.

Camp Lejeune also contracted for replacement roofs, and the instillation of certified cool roofing systems at various buildings in the French Creek and Hadnot Point. This contract amount was \$1,189,437 to Quality Roofers and Guttering Incorporated, a local small business construction firm from Jacksonville, N.C.

Camp Lejeune contracted for more than \$3.3 million in major interior and exterior repairs at Building 118. This contract provides for new interior layout and finishes, HVAC system, plumbing, electrical systems, sprinkler system, fire alarm system and incidental related work to the building. These Recovery-funded upgrades will provide higher comfort levels for residents while increasing building efficiencies in cooling capability and outside-air infiltration and result in greatly reduced energy costs and a higher quality of life. The contract was awarded to Blue Rock Structures, Inc., a local small business construction firm from Pollocksville, N.C.

<sup>i</sup> Recipient Role are as follows: P is a prime recipient; S is a Sub-recipient; PV is a vendor to a prime recipient; SV is a vendor to a sub-recipient; L is a loan recipient.

<sup>ii</sup> Prime Amounts are unique prime awards within a county. These are entities who have received funding directly from a federal agency, and are required to report directly to [www.federalreporting.gov](http://www.federalreporting.gov)

<sup>iii</sup> Unique Sub Awards are amounts that flow into a county from a source that is NOT directly from a Federal Agency. Generally these are funds awarded to the North Carolina State Government that have been directed to a local source.

<sup>iv</sup> Additional Economic Activity are economic activity attributable to a previous funding category. They may be a sub award by a prime recipient within a county, or a contract funded by one of the previous three columns. This economic activity is not counted toward the county total.
